New Delhi, 3 (INDIA) :

The 2nd April 1951.

S. P. JAIN,

for Registrar General, India.

# NATIONAL SAVINGS CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

**TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT**

Births and Deaths from principal districts in towns with a population of over 50,000 in India for the week ending the 10th March, 1951.

† Figures not available.

Explanation of symbols used:—B.—Births; B.R.—Birth rate; C.—Cholera; S.—Smallpox; P.—Plague; F.—Typhoid; D.D.—Dysentery and Diarrhoea; R.D.—Respiratory diseases; M.D.—Maternal Deaths; D.R.—Death rate; I.D.—Infantile Deaths (included in total deaths).

## REMARKS

The figures of births and deaths shown in this statement for the week ending the 10th March, 1951, relate to 101 towns with an estimated population of 14,600 thousands. The total number of towns is 234 and their population is 29,017 thousands. Thus 43% of the total number of towns representing 50% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 8,935 and 4,589 representing birth and death rates of 31.8 and 16.3 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 86 towns with an estimated population of 12,534 thousands. Information about Assam, Bihar, Madhya Pradesh, Madras and West Bengal could not be included. The total number of towns is 202 and their population is 25,187 thousands. Thus 43% of the total number of towns representing 50% of the population is covered. The number of births and deaths recorded in these towns were 7,804 and 4,017

representing birth and death rates of 32.4 and 16.7 per thousand of population respectively. The table at the end gives the position by States.

Pandharpur in Bombay was the only town which had a high death rate of 67.5 per thousand of population and this high death rate was largely due to death from fevers and respiratory diseases.

(B) States (Part B).—The data here relate to 15 towns with an estimated population of 2,066 thousands. The total number of towns is 32 and their population is 3,830 thousands. Thus 47% of the total number of towns representing 54% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,131 and 572 representing birth and death rates of 28.5 and 14.4 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
